THE THIRD TERM QUESTION SETTLED.

WASHINGTON, May 30 .- The proper time having arrived an acknowledged authority has spoken in regard to the third-term question, and President The question of the number of years Grant has just written the most important document of his public career, proposition to amend the Constitu-saying that he is not a candidate for tion—a shape in which all political renomination. It will be read with parties can participate-fixing the more interest and deep concern by the American people than any political document ever written. The firm and dignified explanation of his silence regarding this matter will not surprise those who understand the character of a man who has habituated himself, and whose experience has taught him to rely upon his own methods, and whose greatest successes have been won as the result of quiet independence of thought and discreet silence. Like his other letter, this is characterized by a remarkable absence of clap-trap and the ordinary rhetorical subterfuges of polities. He gives an insight into the nature of his past life; his love for the position of General of the Army; his regard for the will of the people, and his natural exultation that his first four years as Chief Magistrate were so acceptable to them that the people, without invitation from him, sought the opportunity to repeat the highest demonstration of tion, and which I hope may be tri-their confidence in his shillities. Not umphantly elected. With great retheir confidence in his abilities. Not a word in the entire letter could be crased without marring the completeness of the whole. The following is

The Letter: Convention-Dear Sir: A short time subsequent to the Presidential elec-I have been twice called upon to fill, to answer such a question before the subject should be presented by competent authority to make a nomina-tion or by a body of such dignity and authority as not to make a reply a fair subject of ridicule. In fact, I have been surprised that so many sensible persons in the Republican party should permit their enemy to which cannot add strength to the party, no matter how met; but a body of dignity, and particularly of a Convention to make nominations. for State officers of the second State in the Union, having considered this Habilities. question, I deem it not improper that I should now speak. In the first place, I

NEVER SOUGHT THE OFFICE For a second, nor even for a first time. To the first term I was called from a position created by Congress expressly for me, for supposed ser-vices rendered to the Republic. The position vacated I liked—it would have retained it till such time as Congress might have consented to my retirement, with the rank and the accumulation of the emoinments for Reno. which I so much needed, to make a home where the balance of my days En Do might be spent in peace and the en-joyment of domestic quiet, retired from the cares which have pressed that the public good called to me to rake a sacrifice. Without seeking the office for a second term, the nominal control of the office for a second term, the nominal control of the office for a second term, the nominal control of the office for a second term, the nominal control of the office for a second term, the nominal control of the office for a second term, the nominal control of the office for a second term, the nominal control of the office for a second term, the office for ination was tendered to me by the cordingly, ununimous vote of all the delegates; of all the States and Territories, sethe purpose of making their nomination. I cannot say that I was not pleased at this, and at the

following election. But it must be remembered that all the sacrifices, without that comfort, has been made in accepting the nomination the first of all kinds.

Then such a fire of person abuse and slander had been kept up for four years, no with standing the conscientions performance of my duties to the best of my understanding-though I admit, in the light of I was subject to fair criticism—that the indorsement of the people which alone govern public opinion, was a gratification that is only human to have appreciated and enjoyed. Now for the third time,

I DO NOT WANT THE OFFICE

Any more than I did the first time. I would not write nor utter a word to change the will of the people in expressing and having their choice. only come up fairly in the shape of a length of time or number of terms for which any one person shall be eligible for the office of President. Until such amendment is adopted the people cannot be restricted in their choice by resolutions further than they are now restricted as to age, nativity, etc. It may happen in the future history of the country that to change an Executive because he has been eight years in office will prove

AN EFFORT MOST 'DISASTROUS.

The idea that any man could elect himself, or even renominate himself, is preposterous. It is imposing on the intelligence and patriotism of the people to suppose such a thing possible. Any man can destroy his chances for office, but no one can force an election, or even a nomination. To recapitulate: I am not, nor have I ever been a candidate for nomination if it were tendered, unless it should come under such circumstances as to make it my imperative duty—circumstances not likely to arise. I congratulate the conven-tion over which you preside for the harmony which prevailed and for the excellent ticket put in nominaspect your obedient servant.
